

Italian software catalog

Three main components + one file
format

- **publiccode.yml**
- **publiccode-crawler:** discovers new software and updates the catalog
- **developers-italia-api:** tracks publishers & software
- **UI:** end user frontend

3. UI

publiccode.yml

1. publiccode-crawler

Crawls the publiccode.yml files from the repos

<https://github.com/italia/publiccode-crawler>

```
~/dev/publiccode-crawler on  main [?!?] via 🐱 v1.19.3
> ./publiccode-crawler
A fast and robust publiccode.yml file crawler.
Complete documentation is available at https://github.com/italia/publiccode-crawler

Usage:
  crawler [flags]
  crawler [command]

Available Commands:
  crawl           Crawl publiccode.yml files in publishers' repos.
  download-publi Download the list of repos and orgs from the onboarding portal.
  help           Help about any command
  one            Crawl publiccode.yml from one single [repo url].
  version        Print the version number of the crawler.

Flags:
  -h, --help    help for crawler

Use "crawler [command] --help" for more information about a command.
```

2. developers-italia-api

REST API

<https://github.com/italia/developers-italia-api>

DIPARTIMENTO
PER LA TRASFORMAZIONE
DIGITALE

software Operations on software

GET /software List all software

POST /software Create a new Software

GET /software/{softwareId} Get a Software

PATCH /software/{softwareId} Update a Software

DELETE /software/{softwareId} Delete a Software

GET /software/{softwareId}/logs List all Logs for a Software

publishers Operations on publishers

GET /publishers List all Publishers

POST /publishers Create a new Publisher

GET /publishers/{publisherId} Get a Publisher

PATCH /publishers/{publisherId} Update a Publisher

DELETE /publishers/{publisherId} Delete a Publisher

GET /publishers/webhooks List all Webhooks for Publishers

POST /publishers/webhooks Create Webhook for Publishers

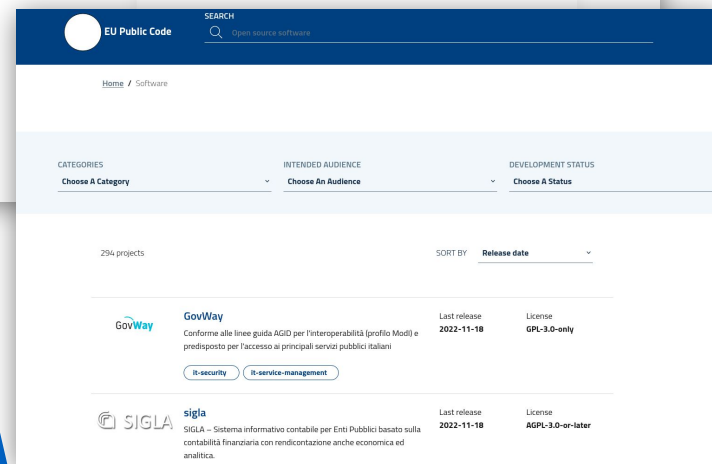

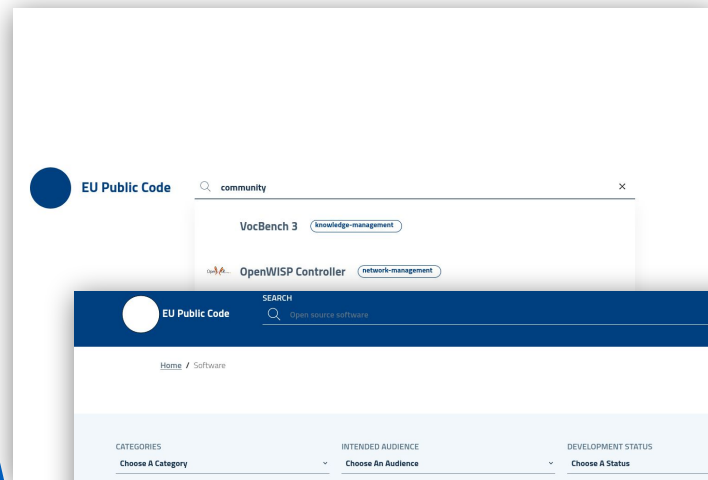

GET /publishers/{publisherId}/webhooks List all Webhooks for a Publisher

POST /publishers/{publisherId}/webhooks Create Webhook for a Publisher
